# "MY CHILD IS SUICIDAL AND I DON'T KNOW HOW TO HELP" Webinar Tip Sheet

# LISTEN TO YOUR CHILD

If you have even small concerns about your child, trust your instincts and act upon them.

## FIND A SUPPORT SYSTEM

Remember that there are those who have had similar experiences and they can provide road maps to navigating the terrain.

### CREATE A SAFE ENVIRONMENT

Create and maintain a safe physical and mental environment to monitor and care for your child.

### VOICE YOUR CONCERNS WITH YOUR HEALTH CARE PROVIDER

Mental health is as important as physical health! Mention any thoughts of suicide to their health care provider and follow up.
